## HOW TO NAVIGATE TRENDS + **STICK TO YOUR STYLE**

Remember the ONE TREND rule. If you want to wear something trendy, especially if it's out of your comfort zone a bit, wear ONE TREND AT A TIME within your outfit; keep the rest of your outfit classic and in line with your true style.

Especially as we age, this is helpful to remember so your outfit feels age appropriate, and not like you're trying to look like a teenager.
