Easy things to add to help your outfit feel FINISHED

- ☒ Add jewelry! Nothing helps an outfit feel finished more than some earrings, a few bracelets, or a couple of layered necklaces.
- ☒ Try a belt! This can often help an outfit feel more elevated, polished, and finished.
- ☒ Add a third piece! A jacket, two layered shirts (like an open button up over a tee, a sweater around your shoulders, etc.
- ☒ The right shoe can absolutely make an outfit feel finished. Instead of a sloppy sneaker or flip flop, try a sleek fashion sneaker, a loafer, a ballet flat, or a boot.

A little tip for adding jewelry to your outfit

When it comes to adding jewelry to an outfit, less is often more. Here's a good basic rule of thumb:

CHOOSE TWO

Earrings and bracelets

Necklaces and earrings

Bracelets and necklaces

Statement rings and statement earrings

Instead of wearing bracelets, necklaces, earrings, and rings, try choosing two. I sometimes wear three together, but if I do, I keep them all more minimal so they don't compete.
